* Ireland: Installation figures do not include December 2005
 ** For Spain, two sets of data using different statistical methodologies are available for 2005. APPA: 1.764 MW (installed 2005) – 8.263MW (cumulative end 2004) and 10.027 (cumulative end 2005) and Plataforma Empresarial Eolica: MW (1524 installed 2005) – 8.504MW (cumulative end 2004) – 10.028 MW (cumulative end 2005)

Note: Due to previous-year adjustments, project decommissioning of 50 MW, and rounding, the 2005 end-of-year cumulative capacity total does not exactly match the year-end 2004 total plus the 2005 additions.
